

LOG OUTBUILDINGS ON POPLAR NECK ROAD

WI-100 +

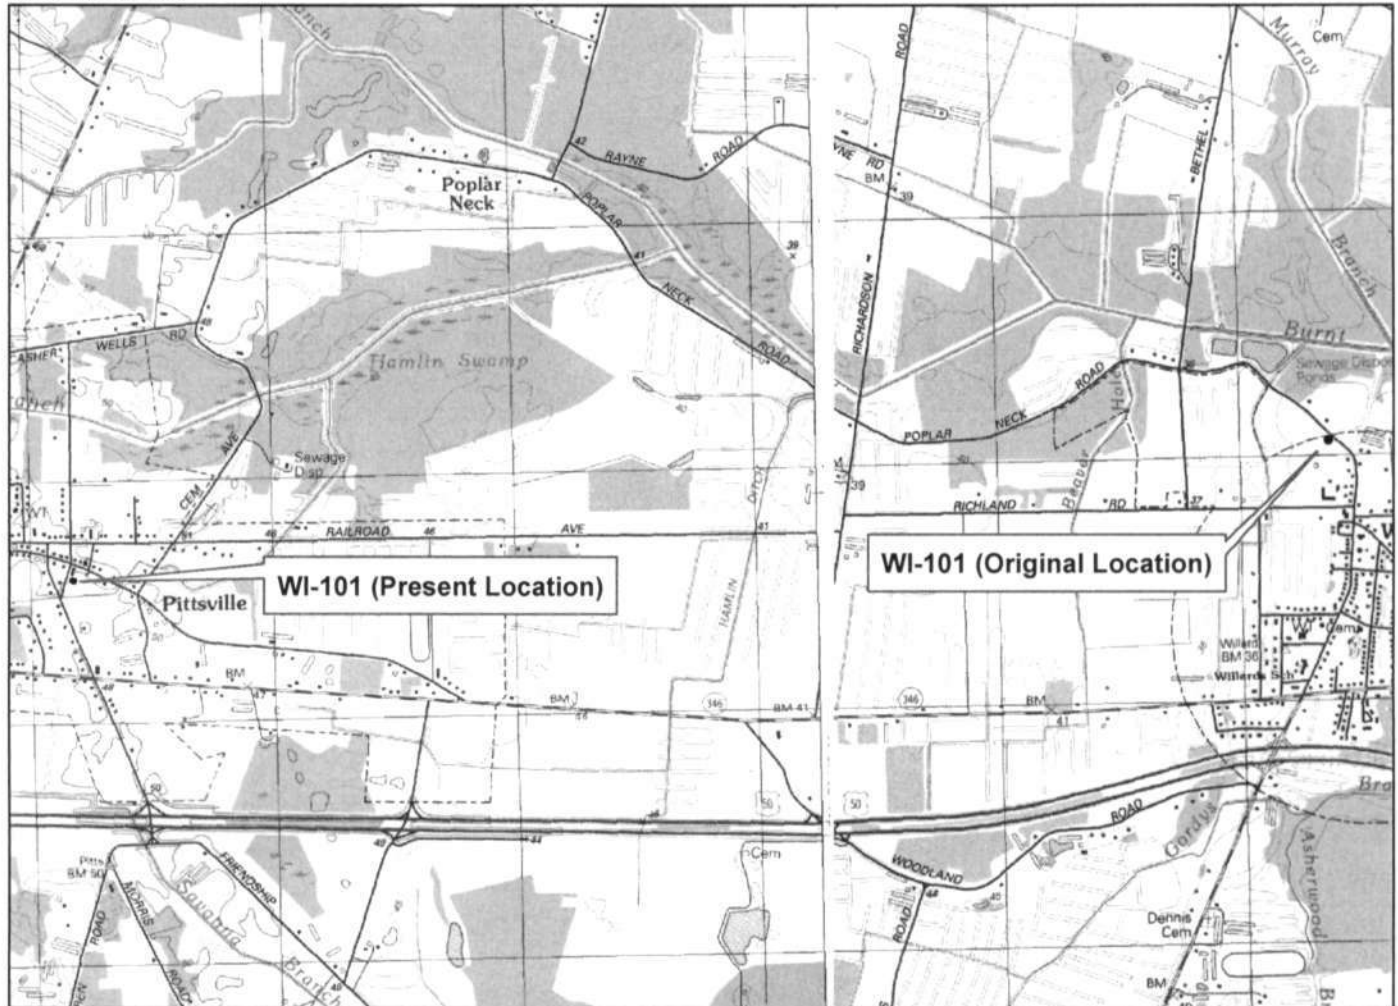

WI-101

These two outbuildings appear to be corn cribs. They are 8-10 logs high and are covered with corrugated metal roofs. Both are currently supported by cinder blocks. Both have a door in one gable end, and one of them has a small square door in the gable itself.

This information now refers to WI-100 and WI-101.
